

# Jukkasjärvi VildmarksTurer AB

## Mountain Tour

- Wednesday Arrival at Kiruna airport, the guide will meet you at the airport and accompany you to the kennel where you will be equipped with extra clothes and sleeping bags, after which we will continue on to one of our camps for overnight stay, or we staying at the kennel. Here we will prepare for the coming tour. We end the day with dinner.
- Thursday We start the day with breakfast and then we take care of our dogs. After breakfast we will learn the basics on how to handle the dogs, sleds and harnesses. We will then pack the sleds with all the necessary equipment and set off on the tour. Each participant will drive his or her own sled with a team of four-five dogs, following the guide who will lead the way. Today's destination is area of Vakkakoski, a stretch of approximately 30 km. On arrival at the camp, we will work together to prepare both the dogs and ourselves for the night. This will include feeding of the dogs, wood chopping and fetching water. We end the day with dinner.
- Friday We start the day by watering the dogs, after which we eat breakfast. The day's stretch will be easy-going, following lakes and rivers to Torneträsk, a stretch of approximately 45-50 km. Overnight stay in Lavu or Ark (small temporary cabin with wood burner) out on the Ice of lake Torneträsk.
- Saturday The morning routines are the same every day. The rest of the day, however, will be characterized by the route chosen. Today's destination will be Abisko. An easy going, 50 km journey along Torneträsk.
- Sunday Today we will enter the true mountain world. The famous Kungsleden (The King's Trail) starts here in Abisko, and this is the route we will be following for the next few days. Our destination for today will be Alesjaur, a spot well known for its immense natural beauty. This 44 km stretch is mostly easy-going, with a few uphill sections.
- Monday Our destination for day six is the Sälka or Singi chalets. In this stretch of approximately 26-38 km, we will pass through the Tjåktja pass, the highest point on the tour at 1100 meters above sea level. Sälka or Singi depends on weather and trail conditions.
- Tuesday On our next-to-last day, the destination is Nikkaluokta. A 35-45 km stretch through valleys at the foot of Kebnekaise, having reached Nikkaluokta, we will be picked up by cars and driven back to the kennel where the dogs will be kennelled and equipment checked and stored. The night will be spent in same camp as first night.
- Wednesday Before your flight home we will have time for a guided tour of the Ice Hotel (Entrance are not included) in Jukkasjärvi but transfer is free. Time allowing, we will also guide you to a tour of Kiruna. The guide will naturally accompany you to the airport and see you off.

Please note: This is a preliminary schedule. The length and route of the tour may vary depending on circumstances beyond our control such as weather, trail access, and seasonal variations etc.
